With grateful hearts

Dear Friends and Families,

The theme for National Catholic Schools Week 2018 is

Learn. Lead. Succeed.

The theme encompasses several concepts that are at the heart of a Catholic education. This year we are focusing on the many ways students learn and lead here at Our Lady of Perpetual Help, with Christ at the center of who we are and everything we do. Sometimes our voices have to be different than what secular culture teaches us. Our schools encourage the integration of our faith in all subjects that are taught. The values and faith gained through our Catholic education offers all of us an opportunity to explore the many life paths that will enable us to use our knowledge and talents in the service of God and others.

We will be incorporating this year's theme into our many activities on campus this week. See the schedule on the following pages—we hope you will join us.

Students at Our Lady of Perpetual Help want to thank many of you who are benefactors to the school, donating money, materials, time and prayers in support of our school. We learn from your example and gain an appreciation for how we can continue to use our talents to serve others our entire lives. We acknowledge the role of our Catholic community to instill in us values and expectations for academic excellence. We pray in gratitude for this opportunity to celebrate National Catholic Schools Week. We are grateful for the many fun times and the many happy memories we have had, and pray that our school will continue to live the ideals of faith, knowledge, and service.

We would also like to sincerely thank Father Bert for all of his support and loving care of our school.

Thank you.

Principal Kelli Michaud
and the entire staff and student body
